

A&S Metal Recycling Inc.

# METAL RECYCLING

A&S provides a scrap recycling program that will make your scrap metal more profitable, while eliminating many hidden liabilities associated with storage, transport and processing of metals.

- Outside certified weights
- Detailed settlement reports
- Personalized metal audit trails
- Reduced rate toll processing service (metal converted into ingots, billets and sows)
- On-site metal segregation equipment (color-coded bins or magnetic signs for containers)
- Certificates of destruction for sensitive parts or obsolete inventory
- Certificates of recycling
- Weekly scrap metal quotes
- Prompt payment
- A&S personnel furnished for segregation programs at your facility
- Metal sortation classes
- Scrap metal storage areas designed to your specifications
- Puck and briquetting units available

We use high-tech analysis to identify alloy for optimum segregation.

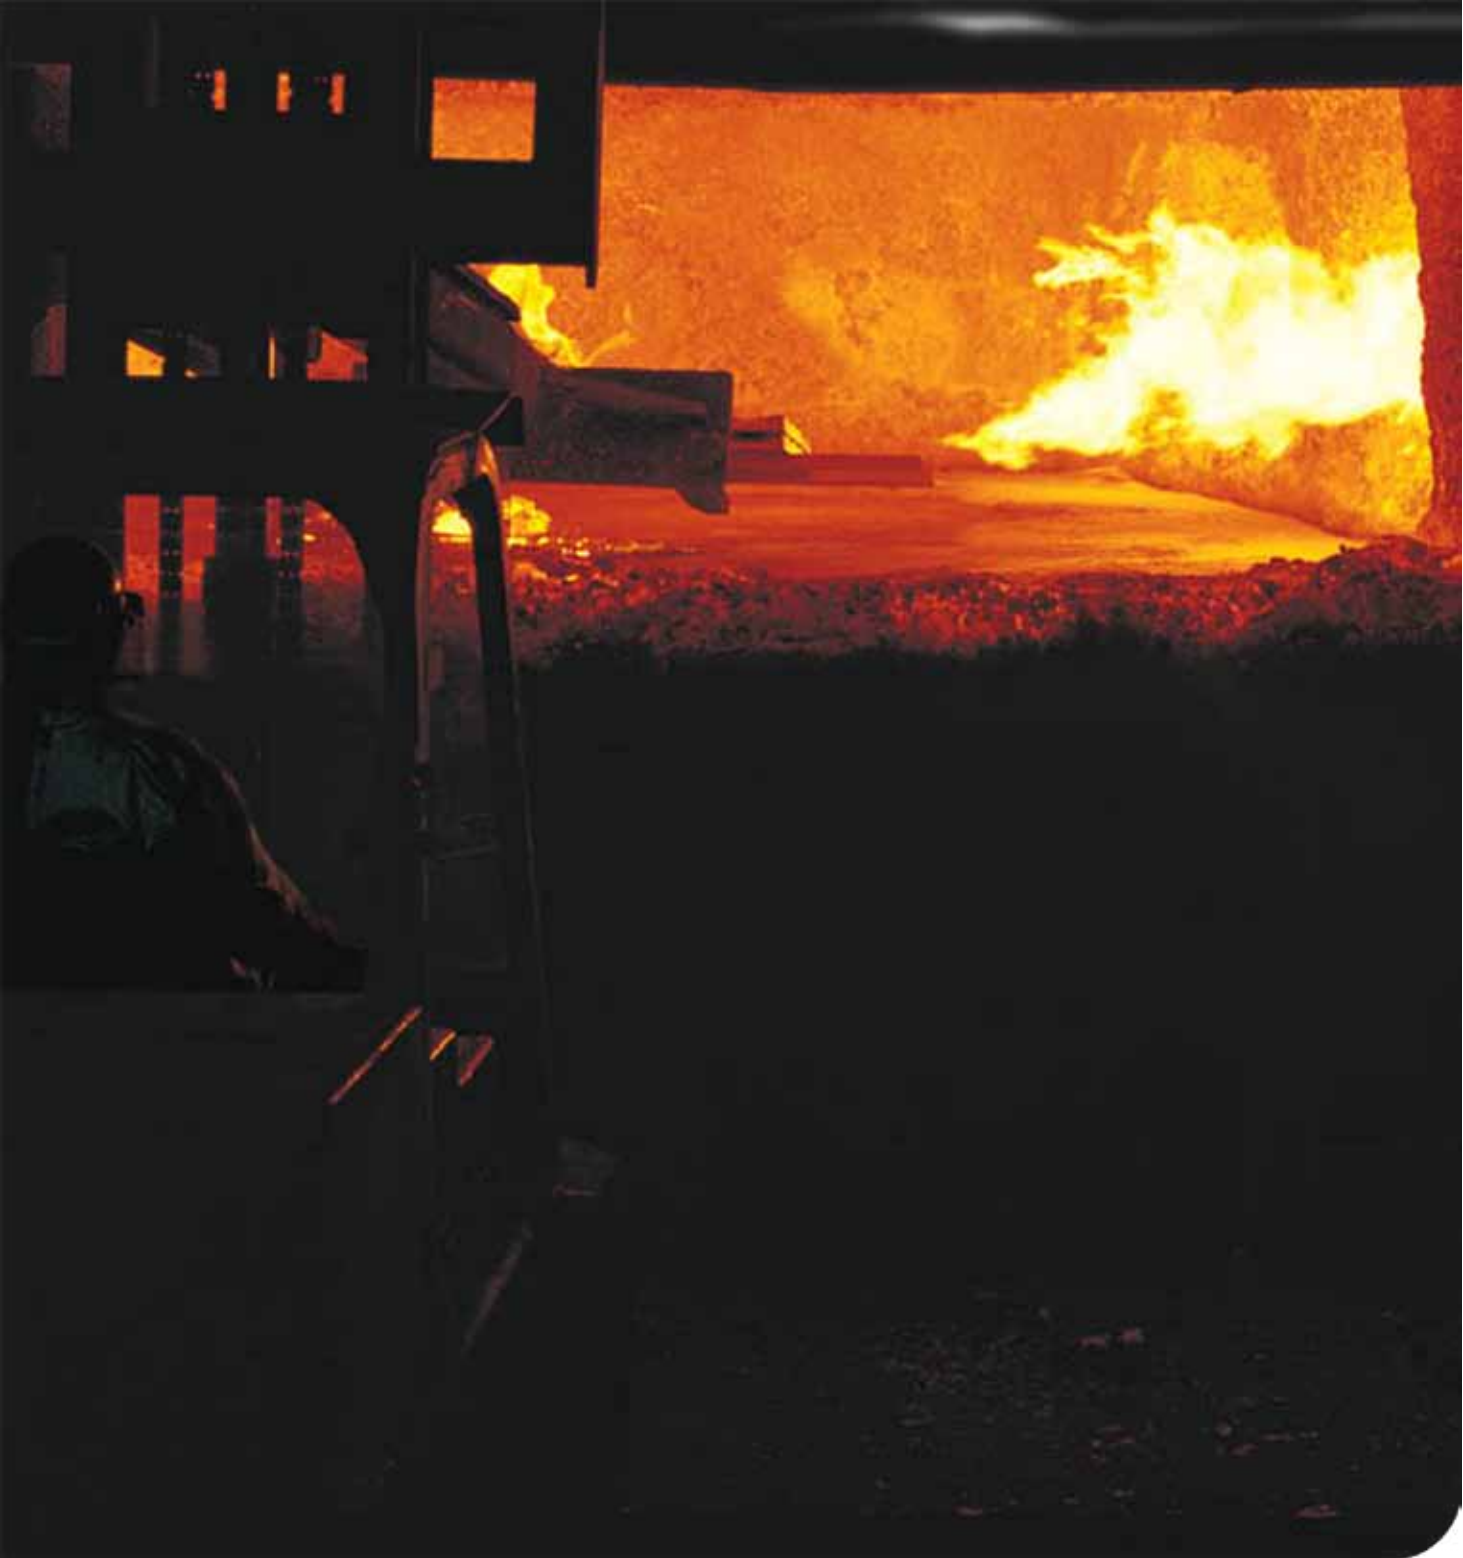

We provide a range of customized leak-proof bins at no cost.

Our environmentally sound storage containers eliminate transport liability.

We process millions of pounds of scrap metal per month.

We offer our customers metal tolling and conversion on at reduced prices.

By packing and processing scrap at our facilities, A&S helps control your cost.

A&S's access to international markets assure you get the best prices worldwide for your metals.

A&S's directly supplies the world's largest smelters. By eliminating the middleman, we ensure you get maximum return for your scrap metal.

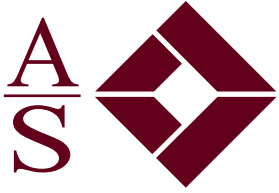

Fully trained and certified emergency response team.

Site Remediation: On-site analysis and treatment.

Emergency Response unit with HazCattling and labpacking capabilities.

# ENVIRONMENTAL AND INDUSTRIAL WASTE SERVICES

With over 20 years experience, A&S is the first company in California to combine both environmental and metal recycling services as one complete package to Fortune 500 companies in the western United States and Mexico.

Other companies have tried to imitate A&S but no one has come close to duplicating our knowledge, personnel, equipment, and experience. With our unblemished, proven record, A&S guarantees the best complete service program in the industry.
